

Assignment: Database Creation for Sunbeam Online Student Portal

ER Diagram

Assignment Description

Assignment: Database Creation for Sunbeam Online Student Portal

Using the provided ER Diagram, design and implement the complete MySQL database for the Sunbeam Online Student Portal project.

Your Tasks

1. Create the database in MySQL as per the ER diagram.
 2. Select the database using the appropriate SQL command.
 3. Create all tables (**users**, **students**, **courses**, **videos**) with:
 - Correct data types
 - Primary keys
 - Foreign keys
 - Relationships exactly as shown in the ER diagram
-

Screenshot Requirements

After executing **every SQL command**, you must take a screenshot showing:

- The command you executed
- The MySQL output/results

Specifically, capture screenshots for:

- Creating the database
- Using the database
- Creating each table
- Running:
