About Sunbeam

Empowering professionals with cutting-edge training and solutions since the late 90's

Our Philosophy

At Sunbeam we believe retaining a competitive edge is imperative for any individual in today's professional world. Companies are restructuring their organizations & reengineering their business processes. Not only have the challenges become more demanding, but also the rewards of staying at the forefront seem to be promising.

Our Expertise

In this scenario, technical & personal skills which provide effective solutions & time critical support are of principal significance for the long term growth of professionals. Sunbeam's expertise in effectively delivering training, solutions & services has made it a favored institution to many students & professionals focused on an aggressive career growth strategy.

Our Success

Sunbeam's proven track record in bringing about effective transformations in individuals is backed by a solid understanding of the rapidly changing needs of the industry & the global business scenario. Sunbeam's success has been built on its comprehensively researched, innovative training methodologies, deployment of technology and an emphasis on transformational & industry-relevant programs offering value-added services to its clients.
